SPEED STEER[®] SLOTLESS MODEL RACING

HO Scale International Trucking System

Trucks!—driven by modern day “Cowboys” to speed across continents—

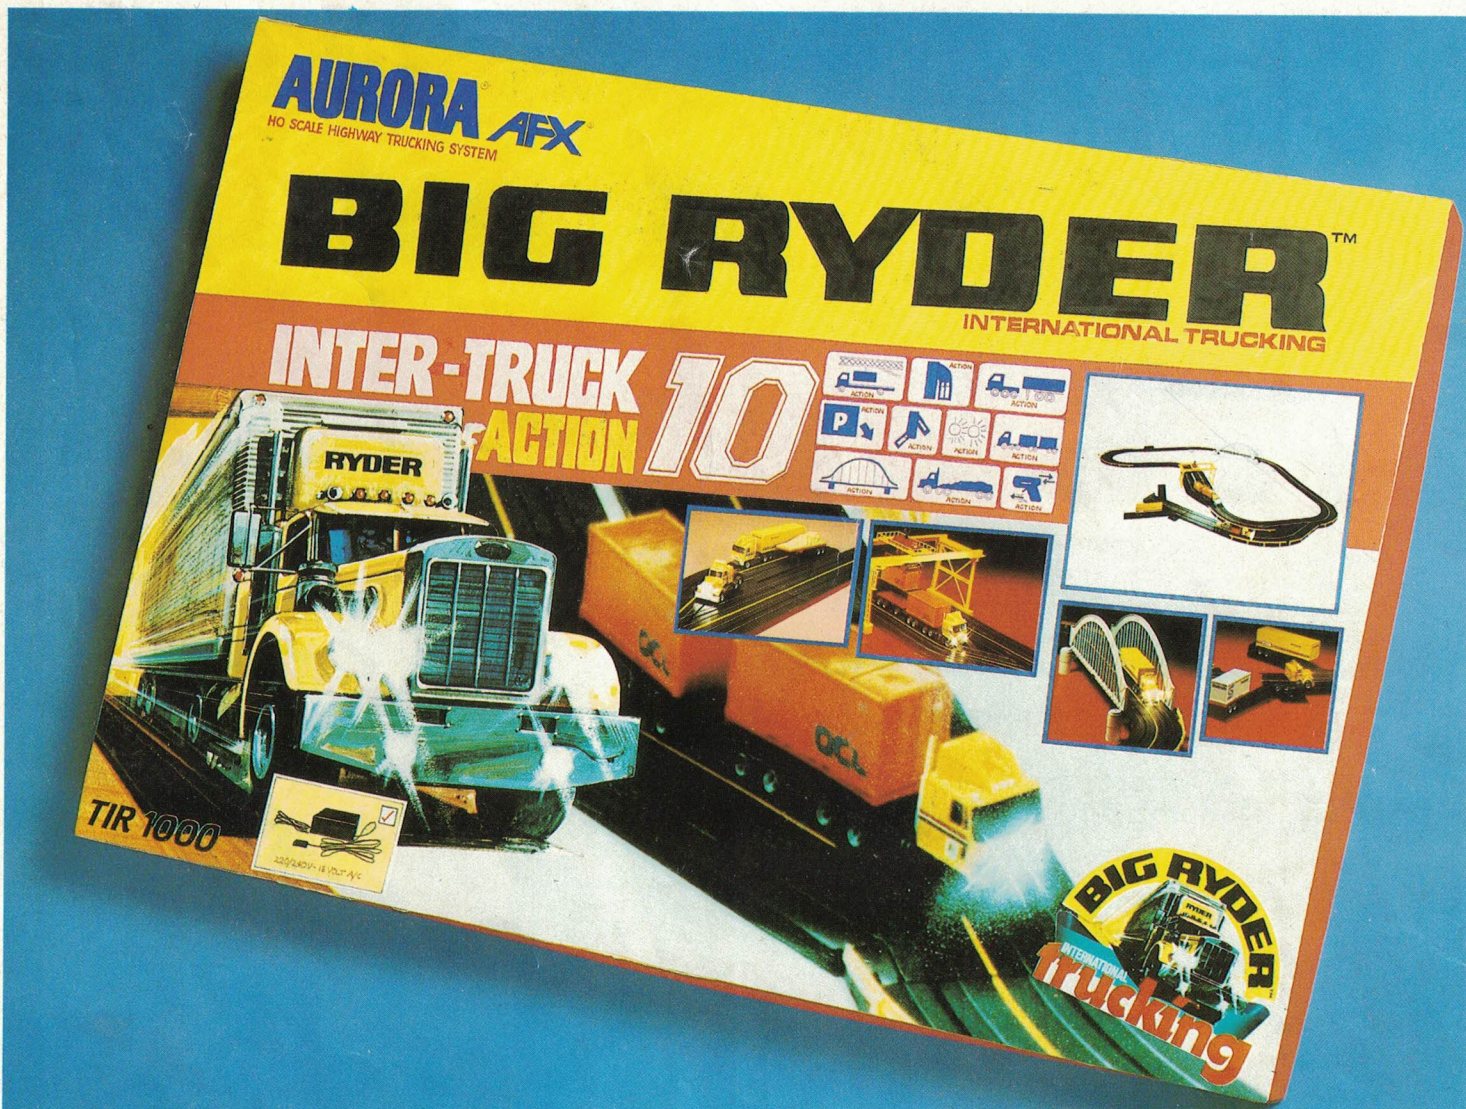

Big Ryder™...trucks which light up the night with their blazing headlights.

Big Ryder™...International Trucking, more participation and ACTION in each set than any model system ever.

Big Ryder™...Trucks engineered to be driven carefully and at high Aurora® AFX® speeds, forwards or in reverse, on Aurora® AFX® track to be built into an international network of trucking without limits.

Big Ryder™...a new hobby for all ages.

Big Ryder™...a truly International Trucking system from Aurora® AFX® .

LAZER 2000™

21st CENTURY RACING

Experience the thrills and skills of racing into the 21st century with Aurora® AFX®! As if guided by some superior force Lazer 2000™ drivers achieve the apparently impossible by experiencing miraculous transitions from table-top to vertical racing. Gravity defying Lazer 2000™ cars climb, twist, turn and dive at incredible speeds. Lazer 2000™ from Aurora® AFX® — a new dimension in racing!

2017 Starfire 2000 (blue) 2016 Odyssey 2000 (red) 2014 Orion 2000 (green) 2015 Saturn 2000 (purple)

●“AURORA AFX – DATELINE 21ST CENTURY ● ODYSSEY AND STARFIRE OF LAZER 2000™ CHALLENGE OTHERS TO REACH AMAZING HEIGHTS!”●

Lazer 2000™ Vertical Challenge

The meaning of this mystery message from Aurora® AFX® will soon become clear to all! Exciting new Lazer 2000™ vehicles can be driven faster than ever round the corners—through the “squeeze” controlling the pace of the race—to the thrills of climbing, turning and diving—just like magic! XL001

●“AURORA AFX – DATELINE 21ST CENTURY ● VERTICAL CONQUEST DOUBLES THE HEIGHTS PREVIOUSLY ACHIEVED BY LAZER 2000™ VEHICLES!”●

Lazer 2000™ Vertical Conquest

Mysterious message from Aurora® AFX®! As if by magic, the new Lazer 2000™ vehicles seem to defy gravity—very fast through torturous corners to the “squeeze” and then twice climbing, turning diving AND twisting—21st century racing! XL002

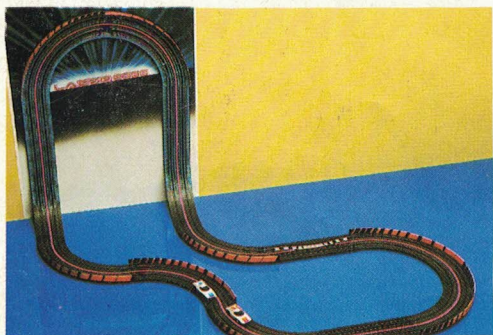

Lazer 2000™ Track

- 2011* 2 × 228mm/9" Straights
- 2012* 2 × 228mm/9" Curve + 2 Barriers
- 2014 ● 2 × 228mm/9" Straight
- 2 × 228mm/9" Curve + 2 Barriers
- 2 × 228mm/9" Transition

*Can be added to any Aurora® AFX® racing circuit for faster cornering and quicker braking control.

● Can be added to any Aurora® AFX® circuit for Lazer 2000™ Vertical Racing.

AURORA® AFX®

SPEED

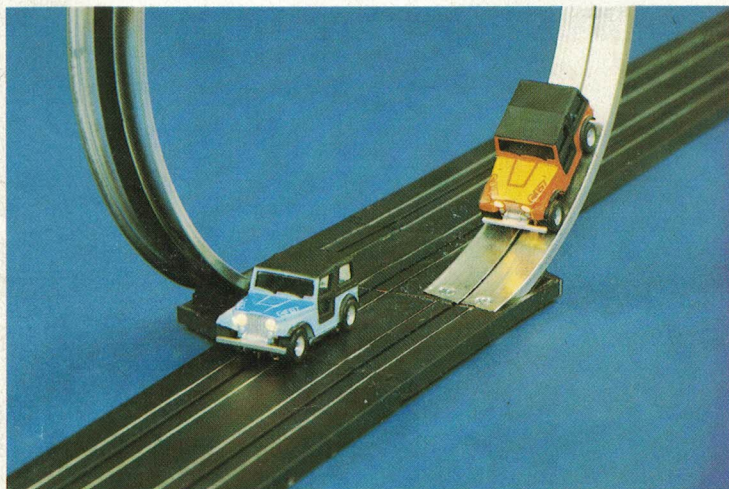

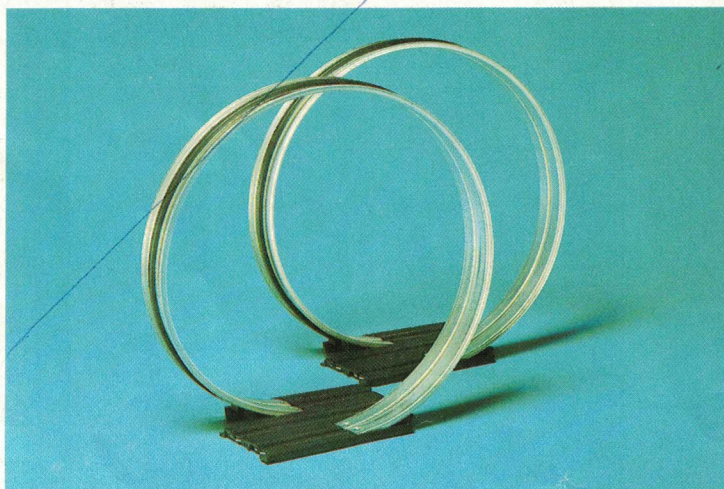

LOOPING

Aurora® AFX® cars have a world-wide reputation for unbelievably high speeds down the straights and through the corners of table-top racing circuits. No racing obstacle is better designed to prove modern car speed and control than the Acrobat Looping from Aurora® AFX® — upside down acrobatic driving might not yet be related to reality but it's great fun!

Loop De Loop GX2600

Being an acrobat isn't easy—Acrobat day and night racing in a CJ7 Jeep® isn't easy either! The clever acrobatic racer learns to accelerate his Jeep® so that the high speed required to successfully "Loop De Loop" doesn't result in a major acrobatic disaster at the corners.

2504 Looping Accessory Pack
Changes racing drivers into "acrobat's!"

*Suitable for all Aurora® AFX® circuits and most Aurora® AFX® cars.
