

AURORA[®] AFX

THE CLOSEST THING TO REAL RACING

CATALOGUE \$1.00

TOMY[®]

F8610 Thunderloop Thriller

Loop the loop, ride the wall and speed through the treacherous "S" curve with this race of a lifetime.

Contains: 27.5ft (8.39 metres) of tri-level high performance track, 2 AFX Turbo cars, Stunt loop, 8 piers, 12 guardrails, 2 hand controllers and 240V-16V Power Pack.

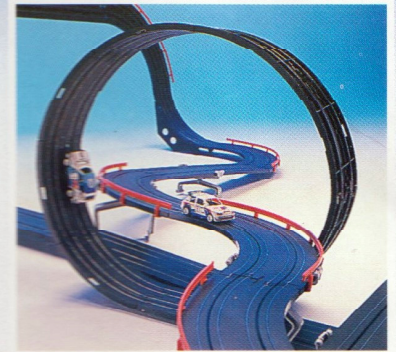

F8654 Jaguar Challenge

Compete in your own Le Mans race with this replica of this famous circuit. Two Jaguar cars battle it out with two Porsches with front and rear lights powerfully blazing around this 20½ft (6.25 metres), 4 lane track.

Contains: 2 Jaguar XJR-9LM lighted cars, 2 Porsche 962 lighted cars, 20½ft (6.25 metres) of 4 lane high performance track, 16 Crash barriers with light reflectors, 4 hand controllers, two 240V-16V Power Packs.

F8610

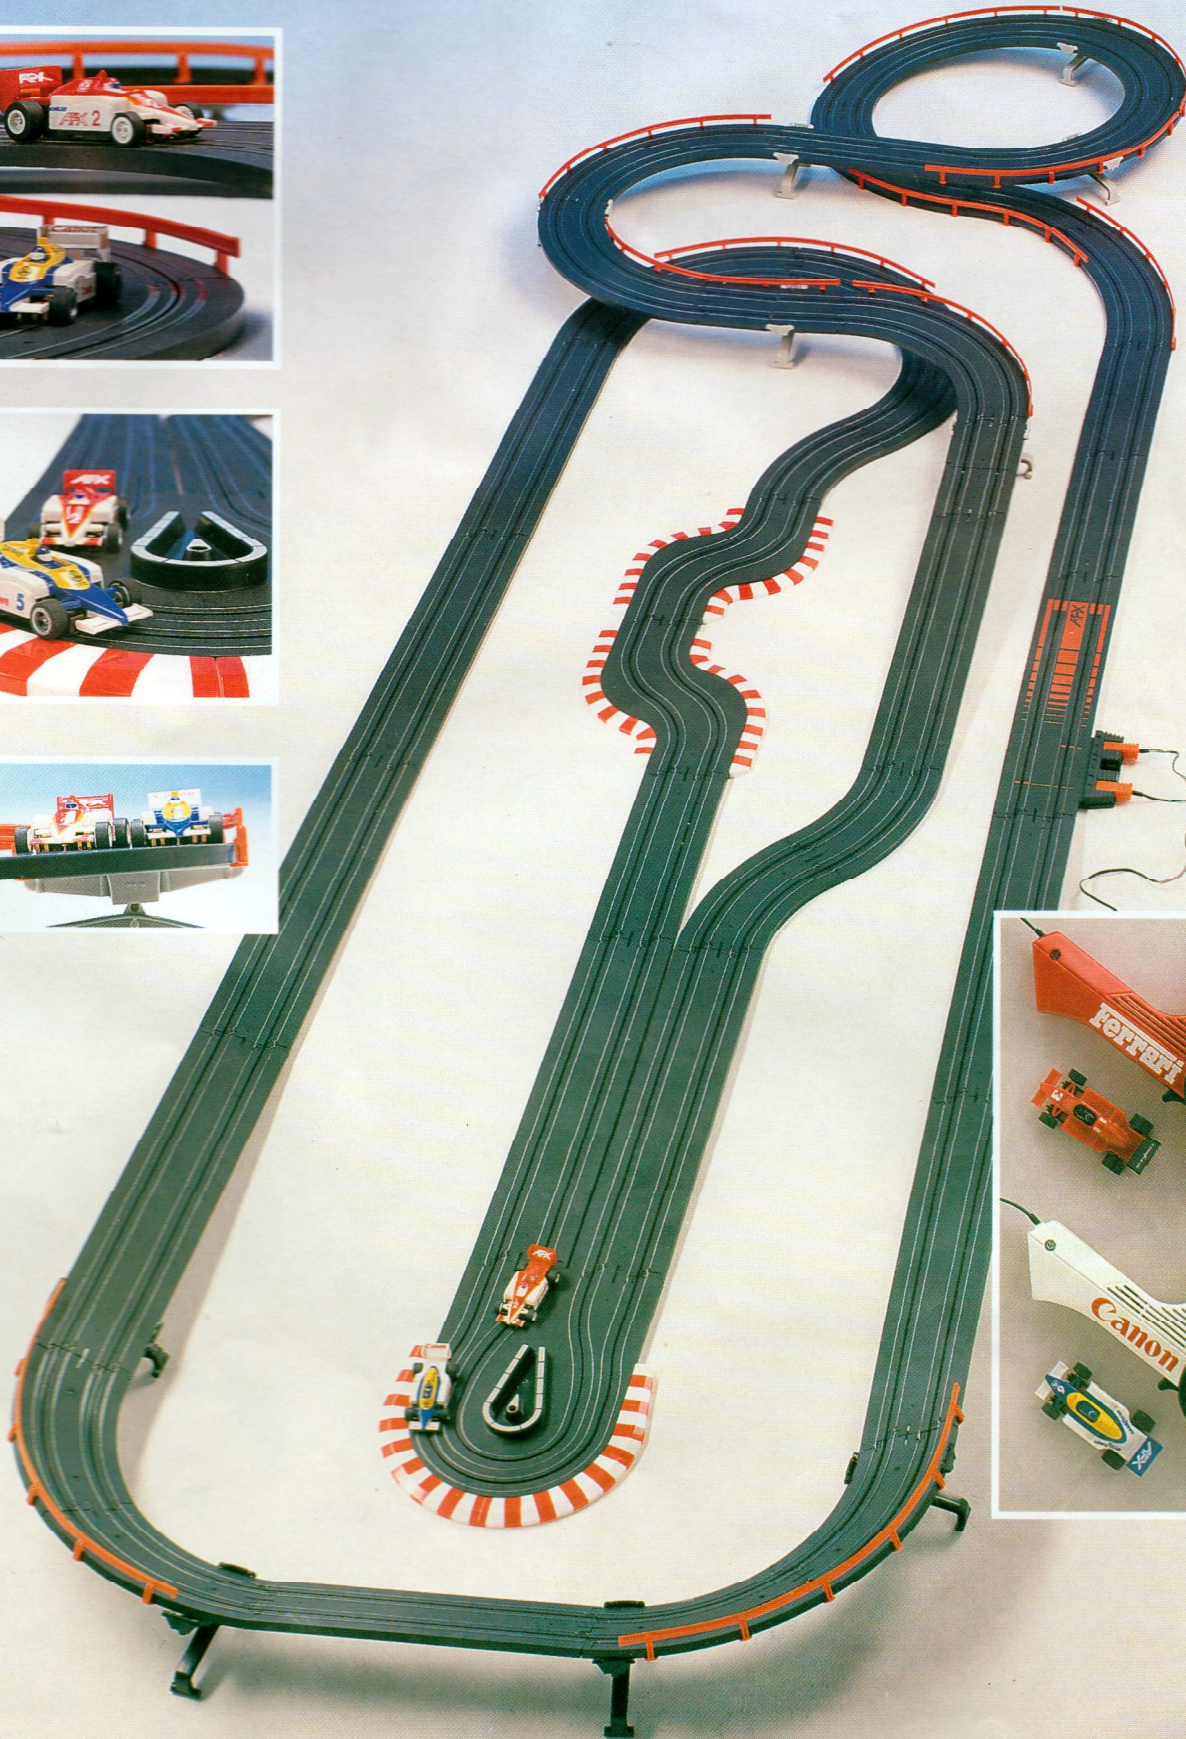

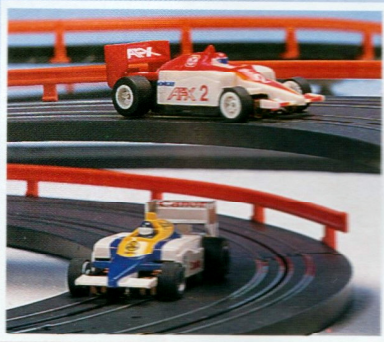

F8654

F8678 Formula 1 Turbo Challenge

The ultimate turbo speed challenge with all the excitement, dangers and daredevil tests of driving skill to be found on a world class Formula 1 circuit. Long, fast straights, a banked curve that calls for courageous driving, a tight and treacherous hairpin corner and a tricky chicane. For real racing response the two innovative hand controllers, decorated in the same livery as the respective cars, feature a

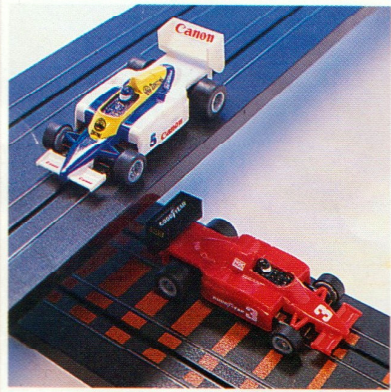

finger-tip speed control wheel and a turbo booster trigger that powers the cars into "super speed" along the straights. With a Ferrari and a Cannon Williams it takes skill, lightning fast reactions and nerves of steel to win the Formula 1 Turbo Challenge. Contains a Ferrari, a Cannon Williams, 35 sections of track, including banked, hairpin and chicane sections, low angled bridge supports, crash barriers, two-way power pack and two hand controllers.

F8650 Formula 1 Duel

Two Formula 1 Racers battle it out around 8½ft (2.59 metres) of over-under high performance track.

Contains: 2 AFX cars, 8-section track, 2 controllers, 6 guardrails, 2 piers, and 240V-16V Power Pack.

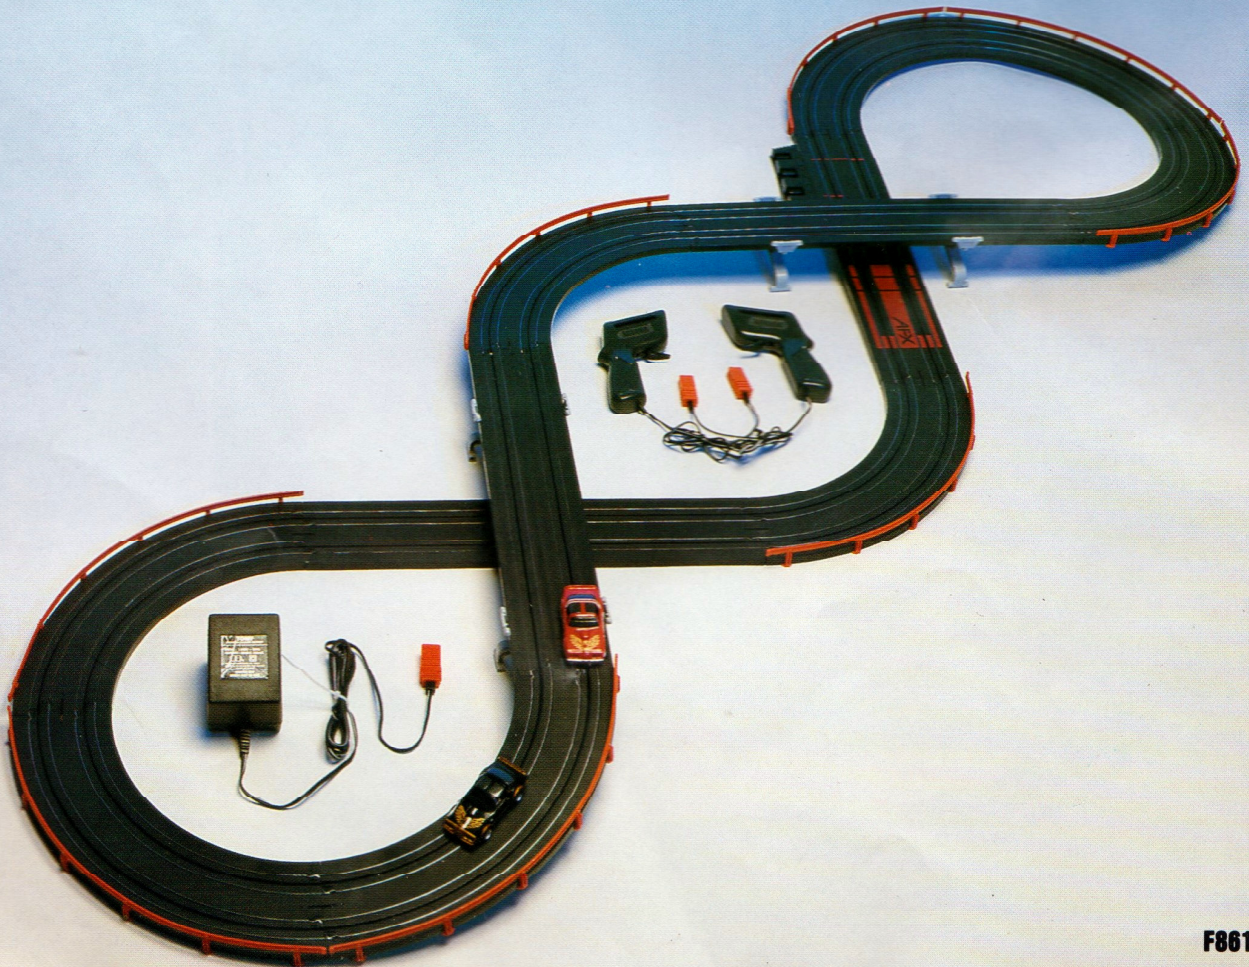

F8650

F8614 Double Fire

Drive in daylight or darkness without missing any of the action. 13ft (3.96 metres) of under-over high performance track challenge your driving skills on a double eight racing course.

Contains: 2 AFX Turbo LIGHTED cars, 13ft track, 2 controllers, 8 guardrails, 4 piers, and 240V-16V Power Pack.

F8614

F8607 Ghost Racer

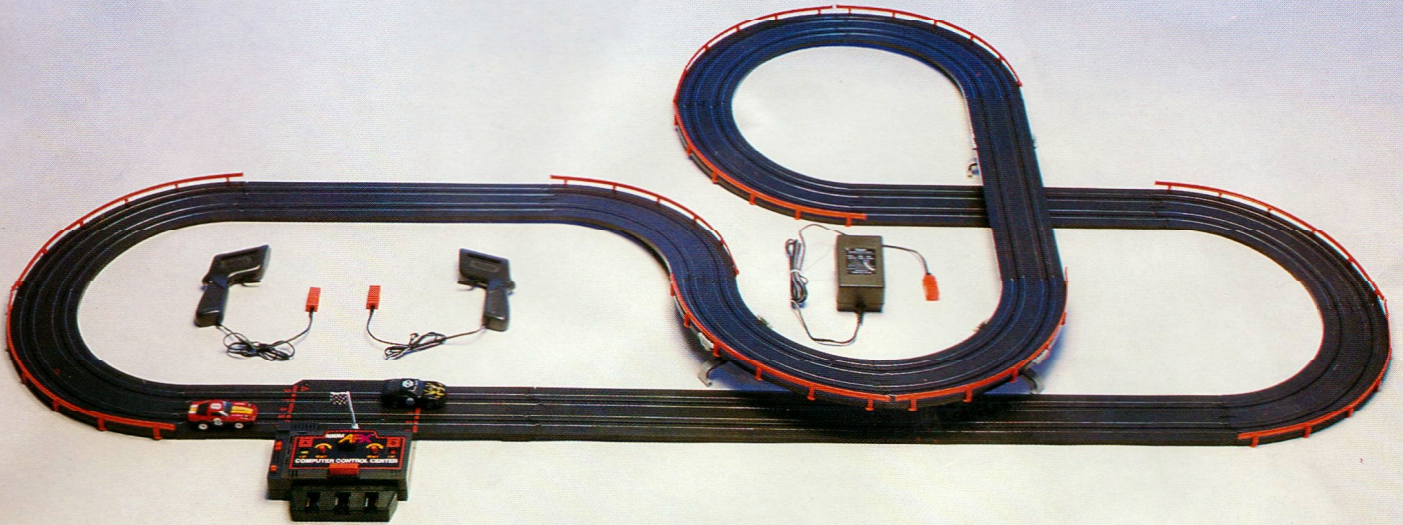

Programme the Computer Control Centre for the number of laps and race the "Ghost Car" to the finishing flag.

Contains: 17½ft (5.33 metres) of over-under high performance track, 2 AFX Turbo cars, 2 controllers, 10 guardrails, 3 piers and 240V-16V Power Pack.

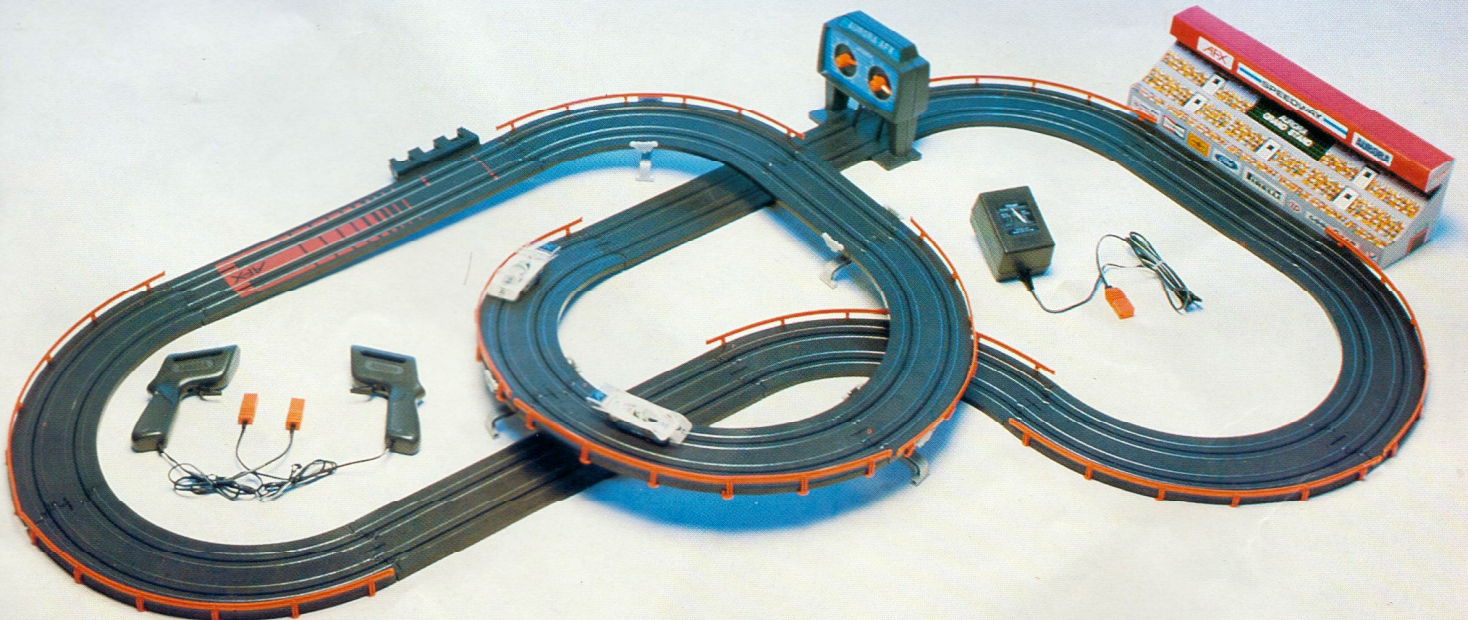

F8615 Championship Tour

Challenge your skills on every corner and straight away on this championship course of 17ft (5.18 metres) of under-over high performance circuit.

Contains: 17ft (5.18 metres) high performance under-over track, 2 AFX Turbo racing cars, 2 controllers, 10 guardrails, 4 piers, automatic lap counter, realistic-looking Grandstand and 240V-16V Power Pack.

F8607

F8615

Aurora AFX

Brings all the realistic thrills and skills of motor racing right into your home. Each Aurora AFX car is an authentic model of a high speed, power performance machine, right down to the last detail. No other model racing car can match Aurora AFX for quality, strength and realism, or for genuine race track excitement. Aurora AFX cars are the fastest scale model slot cars in the world with scale speeds in excess of 1800 kph.

THE CLOSEST THING TO REAL RACING

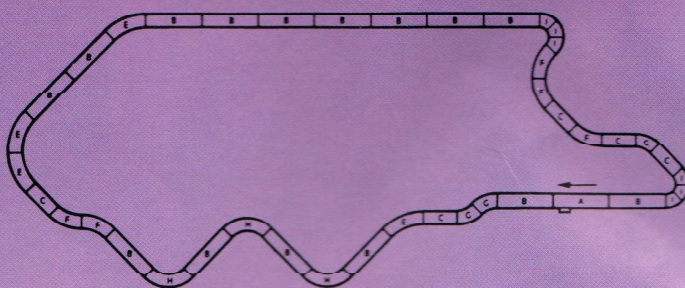

AURORA A.F.X. brings all the realistic thrills and skills of motor racing action right into your home. No other model racing car system can match **AURORA A.F.X.** for speed, strength and realism or for genuine race track excitement, *but beware* as you will find the straights super-fast, the corners tight & treacherous.

Once you have purchased your initial set, many variations and layouts of up to 10 lanes are possible by adding the many tracks and accessories available.

Build a layout with long straights, tight corners, banked curves or a model of the many FORMULA 1 circuits to add that extra realism.

Drift Action Curve Set

Add extra excitement and racing realism. The Drift Action Curve Set allows cars to 'drift and tail slide' through corners. Power cuts off on entering the curve and momentum carries them through. Too fast and they spin off the track — too slow and they stall. Real life thrills, skills and spills! Contains 2 x drift action curves, 2 x 12" curves and 1 x 6" straight.

Ref No: 8690

9" Chicane Curve Set

Contains 2 x chicane tracks (R & L), 2 x 15" straights, 4 x kerbing.

Ref No: 8670

Hairpin Curve Set

Contains 1 x 3" hairpin curve, 2 x 15" straights, 2 x kerbing.

Ref No: 8669

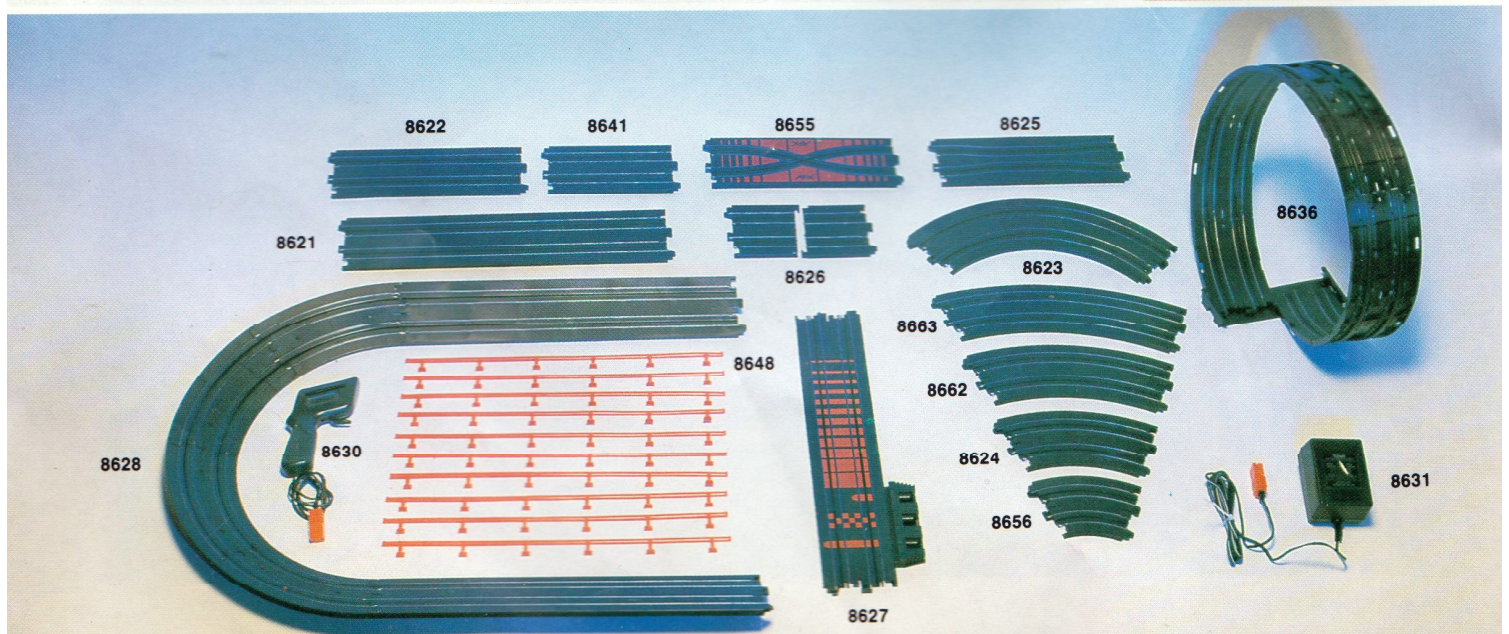

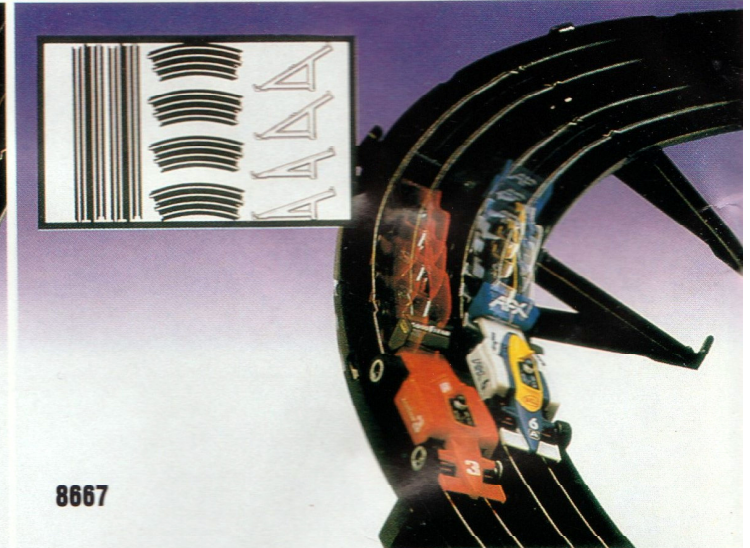

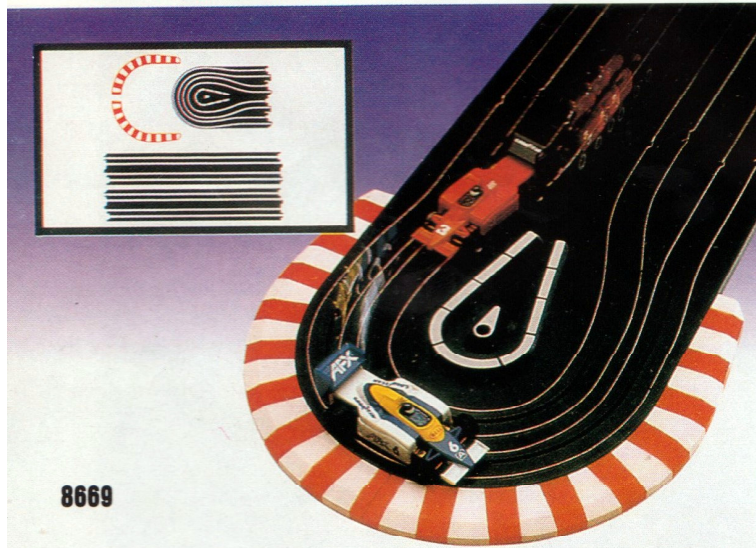

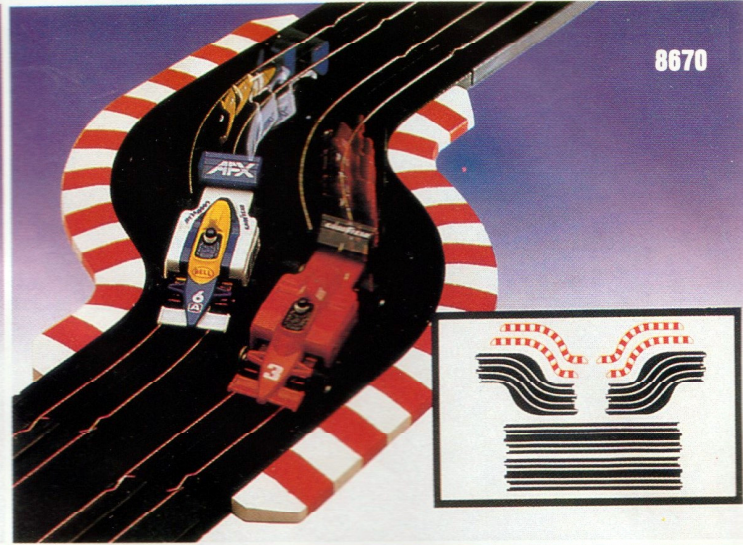

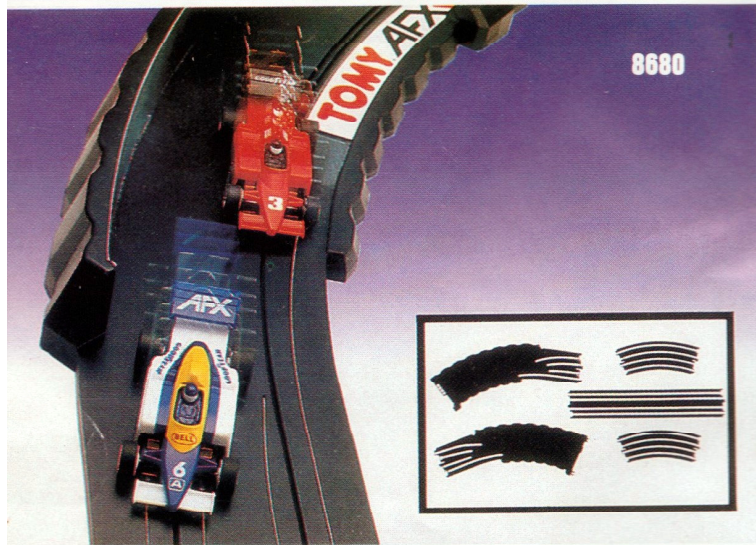

12" Banked Curve Set

Contains 4 x 12" 1/8 banked curves, 2 x 15" straights, 4 x bank supports (2 high, 2 low).

Ref No: 8667

Lap Counters

To keep a record of who is winning, there are a number of Lap Counters available.

1. F8646 Lap Counter Track

15 inches of high performance track with built-in lap counter for 10 laps.

2. F8629 Automatic Lap Counter

Over the track automatic lap counter records up to 50 laps.

3. F8639 Computer Control Centre

Allows you to programme one of the cars controlling the speed and number of laps.

Allows you to race with a friend or against the automatically controlled second car with a simple flick of the switch. Records up to 10 laps with a chequered flag waving in the race winner.

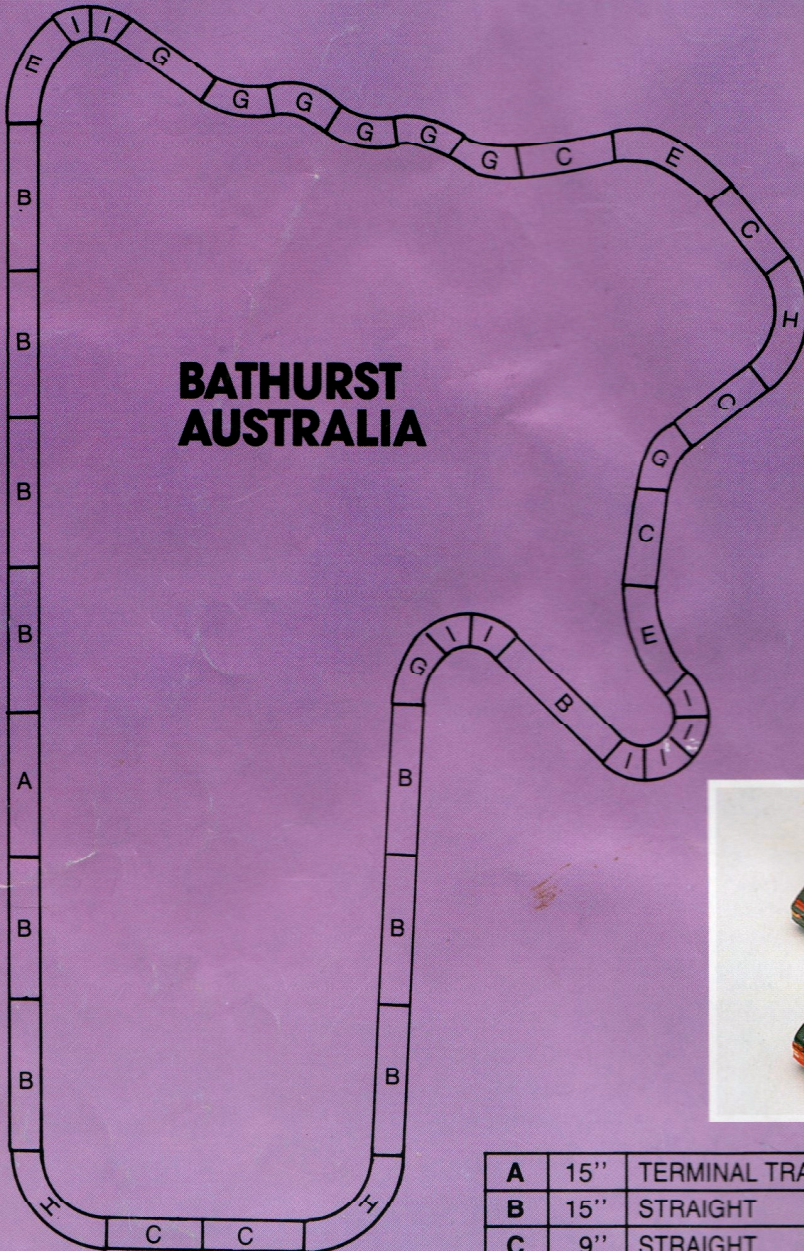

ELECTRONIC CONTROL STATION

Watch the control tower lights. Then count down Red, Amber and Green — Go! Race against the clock, or your competitor in a head to head challenge over distance (up to 195 laps) or time (up to 99 minutes). Your **Aurora AFX** Electronic Control Centre controls your races and time trials, displaying split times, lap counts and sound effects. Reproducing the excitement of real Grand Prix, Rally and Sports Car racing, your Control Centre leaves you free to concentrate on what's really important — being the fastest driver!

- electronic starting with lights and sound effects
- false start detector
- lap counting facility up to 195 laps
- quartz analogue clocks for timed racing up to 99 mins
- timing accurate to 1/100 of a second for fastest lap and overall race times
- electronic finishing
