TRACK ELEVATION SUPPORTS
In varying heights for easy snap-on track assembly. Adjusts to any banked angle.

ROAD RACE BRAKING MARKERS
Warning signs sequentially numbered from 4 to 1 to alert racers to curves ahead.

PLUG-IN TERMINAL TRACK
Pre-wired to accept plugs from controllers and Wall-Pak—no preparation necessary. Color-coded.

SNAP-IN GUARD RAIL
Tabbed rails snap firmly and easily into slots on track.

THE AFX RACING TEAM

World Championship Driver Jackie Stewart said it first:

“AFX is the closest thing to real racing.”

And that's the way it's been since 1960. Aurora has continued to maintain its position as world leader in Model Motoring. By far the best-selling Electric HO Racing Line. With an unmatched standard of excellence. And an avalanche of technical breakthroughs, innovations, performance and value features that have left the others on the line.

And now for 1977, the “closest thing to real racing” gets even closer!

Because for 1977, all the exciting AFX control, performance and assembly innovations will be dramatized more realistically—and more authoritatively—than ever. We've brought together three of the most famous Championship Drivers the world has ever seen to endorse and promote the new AFX line to your customers.

Back with us again is **JACKIE STEWART**, winningest Grand Prix Formula 1 driver of all time. Now more famous than ever as a featured sports commentator on **ABC's WIDE WORLD OF SPORTS**.

And, the king of them all, **RICHARD PETTY**. Winner of six national championships, Petty is considered the most successful stock car driver in history with more than twice as many career victories as his nearest active NASCAR rival.

Finally, the man considered to be the greatest all around race driver of this era, **A. J. FOYT**. A six time USAC national champion. Three time winner of the Indy 500. Only driver to win the Indy 500 and Le Mans in the same year!

Plus, for 1977, each new AFX set will be named after the most famous and well known races in the world.
