AFX is slot car racing at its brilliant best! It's the truly compact system that's big on excitement but small on space. That means you get a lot more thrilling race action into a lot less room than you could with other systems.

You'll find that the cars are fast and strong, the straights are long, the corners tight the chicanes treacherous and the loop-the-loops simply terrifying! What's more, the fantastic range of accessories you can choose from are not just realistic - they're reliable too because AFX is a top class racing system.

This is your complete guide to AFX racing, telling you everything you need to know about the sets, accessories, cars and extra track available. It even includes tips on alternative layouts and an exclusive track offer.

What's more, AFX offers a second to none spare parts service at 'Pit Stop Service Centres' across the country and through the Tomy Care Line. That means the only thing that'll keep you off the race track is your own driving!

FREE 1 YEAR WARRANTY

You're fully covered with the AFX one year warranty. All sets bear the 'Laurel Wreath' which means that, should any major component develop manufacturing faults, Tomy guarantee to quickly repair or replace that component.

VERTIGO

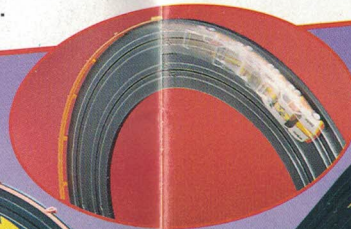

TRACK LENGTH
9.0
METRES
(29.5FT APPROX)
SPACE REQUIRED
102cm x 158cm

VERTIGO

Ref. 8661

Defy gravity as you loop the loop, perform terrifying dives, take on the horrible hairpin bend, climb skyscraping straights and grit your teeth for the 'Wall of Death' in this ultimate test of driving skill and nerve. You'll be amazed how the two AFX anti-gravity rally cars accomplish feats that look utterly impossible. That's why Vertigo takes you to the edge!

Vertigo contains 2 rally cars, 50 pieces of customised track, low and high bridges, banking supports, crash barriers, 2 hand controllers, a power pack with two-way race plug, spare parts and instructions.

FORMULA 1 DUEL

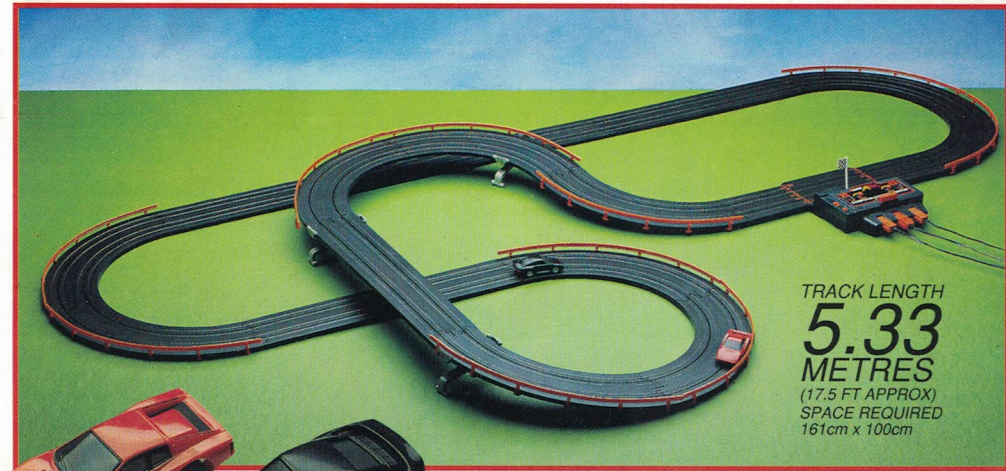

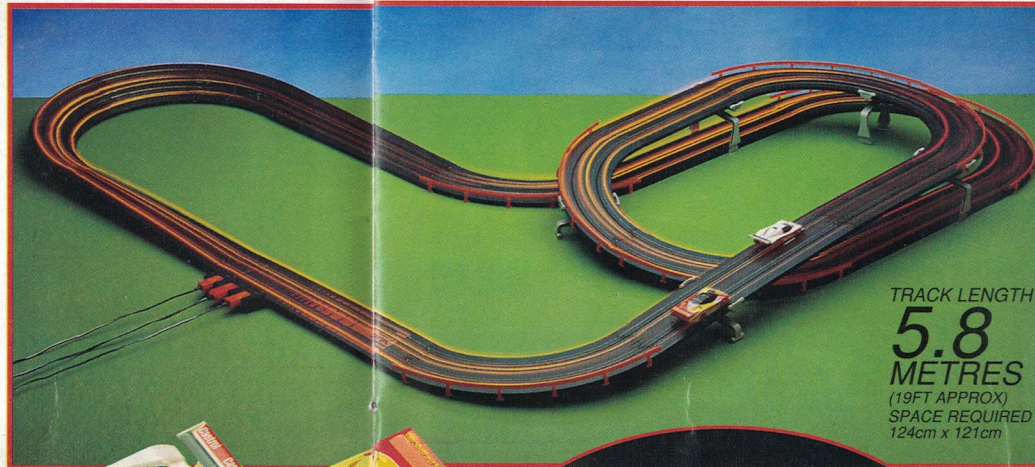

(Ref. 8650)
The straights can't get any faster and the turns can't get any tighter in the Formula 1 Duel. This set offers you the chance to relive the intense rivalry between the Williams and Ferrari teams. Two realistically detailed Formula 1 cars speed around the track, slowing for the curves and accelerating up the straights. The set even includes piers so that you can raise sections of the circuit and sturdy crash barriers to prevent any mishaps if you misjudge your approach to a tight corner. In fact it's just like any other Grand Prix - action all the way!

Formula 1 Duel contains AFX Formula 1 Williams and Ferrari cars, 8 sections of track, 2 piers, 6 crash barriers, 2 hand controllers and a two-way power pack.

MIDNIGHT MARATHON

(Ref. 8651)
In the depth of night with their headlights blazing these two perfectly matched turbo racers go head to head over the straight and banked turns of this testing track. Can you take on this even greater challenge and keep your cool while racing in the dark? The only guidance you'll have is those powerful headlights picking out the potentially lethal twists and turns of the track. Remember, one small mistake could cost you victory!

Midnight Marathon contains two AFX Group C super cars with working headlights, 17 sections of track, a banked curve, 4 piers, 8 crash barriers, 2 rugged hand controllers, plus a power pack with two-way racing plug.

COMPUTER CHALLENGE

(Ref. 8652)
Who said you can't beat the computer?! With Computer Challenge you can...But only if you're very, very good. This is the perfect set for race aces without a partner and for those AFX enthusiasts who want to put in a bit of practice under truly testing race conditions. The set features a Ferrari Testarossa turbo and a Porsche 959. Either car can be computer-programmed to do a certain number of laps at a set speed while you control the other car. As you improve simply increase the computer controlled car's pace. This is a set that has been designed with maximum excitement in mind. It's a race over a tight, twisting circuit that will let you develop your own skills - in your own time.

Computer Challenge contains an AFX turbo Ferrari Testarossa and a Porsche 959, 16 sections of track, 3 piers, 10 crash barriers, 2 instant response accelerator hand control plus a power pack with two-way racing plug.

NOW MEET AFX'S DRIVING FORCE ...

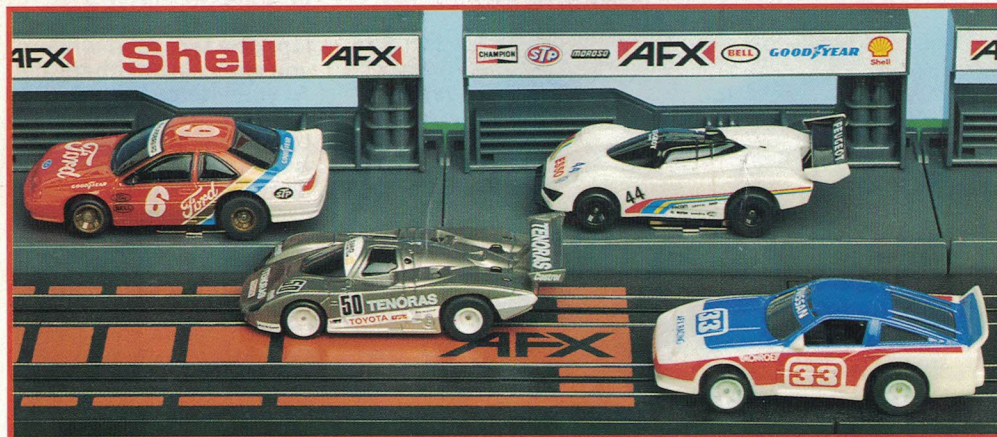

These authentic models give you gripping, turbo-charged performance but are still tough enough to take the spills as well as the thrills. No other slot racing cars can match AFX for strength, quality or realism.

LOOK WHAT YOU CAN DO WITH AN EXTENSION SET!

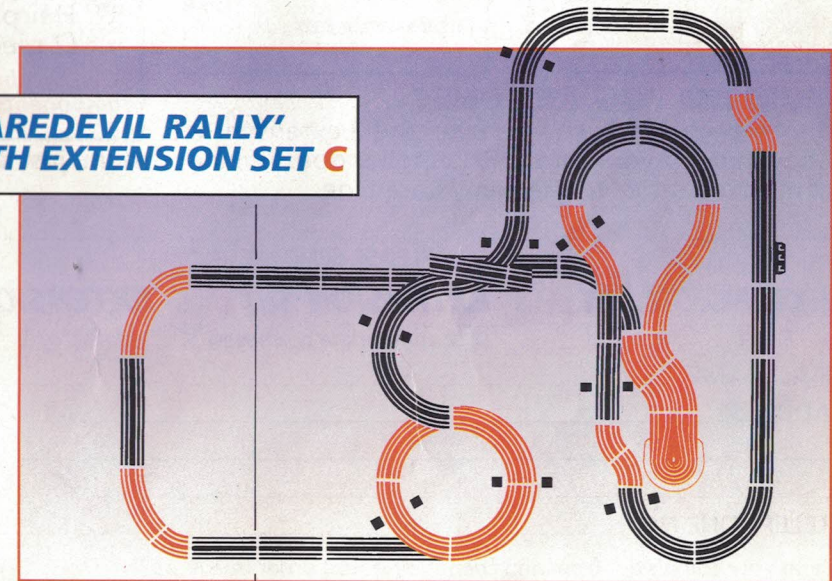

To make your AFX even more fun, we have created 3 very special extension sets - each packed with track and each with a special purpose in mind. There's the 'Loop the Loop' set, the 'Fast and Straight' set and the 'Take the Curve' set. To give you an idea how these sets could transform your present AFX racing set, we've created a few of our own. (The red sections are from the extension sets). As you can see, the possibilities, like the fun, are endless! Look at this page, decide which sets you like and then go to the back page to discover how they could be yours.
