IN 1981**

# AURORA THE INNOVATORS

The acknowledged leader since 1960, Aurora again introduces a number of major innovations in Model Motoring. Each one a technological breakthrough. Each one bringing excitement, superior control and performance to AFX for 1981.

## AFX "Turn-Ons" SP Action

For the first time ever in slot racing, Aurora AFX offers dual function control. In addition to speed control, AFX "Turn-Ons" SP cars allow the driver to perform a second exciting action —

**"Cats Eyes"** — Turn the headlights of this "SP" car on or off with the flick of the switch — true, realistic day and night rallye.

**"Blazin' Brakes"** — Turn on the brakes — for sudden stops or "slow downs" — flick the switch and turn on the brakes — and Brake Lights too — only from Aurora AFX.

**"Stop Police"** — The excitement of police chase action with controllable overhead roof racks — or for added thrills, a police car that can back up into the squeeze, criss cross, or the new radar trap.

## AFX Speed Shifter "Two-Speed" Action

AFX, "the closest thing to real racing", is now truly "the closest" with AFX Speed Shifter. The realistic "Hurst" Gear Shift controller activates the transmission in the two speed car for gearing up or down — choose from Formula 1 cars — Turbo cats — or Turbo trucks for the "closest thing to real racing".

## AFX Speed Steer "Hazards"

Who ever thought that slotless racing could be exciting without a "third" car? AFX Speed Steer for 1981 introduces the "hazard" with so much excitement that the "third" car concept is no longer a feature. Crash through the Speed Steer "Bash Bars" — jump the "Breakneck Bridge" or choose the best way through the "Hazard Canyon Bypass". But be careful — Smokey is in pursuit, and only he can use "Smokey's Turnaround" ramp. For added thrills, play the "Thrill Show" with leapfrog jumping — and by the way, we still have a third car for those who enjoy the roadblocker excitement.

**1981 — The Year of Achievement**

# AFX THE ONLY REAL RACING SYSTEM

For more than 20 years, Aurora AFX has been building an H.O. Scale Model Motoring System that today stands on its own as the leader in its field. Aurora AFX is truly in the "roadrace business", offering the consumer more than just the "one time" purchase.

In 1981, Aurora AFX strengthens its "System" even more, by offering the strongest line-up of "EXTRAS" in its history.

## VEHICLES

AFX Speed Shifter Cars  
AFX Speed Shifter Trucks

A Collectors Dream — 74 Styles in all to choose from

AFX Service Parts — Aurora AFX cars do last longer — but when parts need replacing, AFX has them. EVERY part for EVERY car we make is available, and only Aurora can offer the consumer that guarantee.

## ACCESSORIZE FOR ADDED ENJOYMENT

The roadrace set purchase offers the consumer the basics for building an exciting, long term hobby. With Aurora AFX, the consumer has the ability to build an empire of exciting play situations.

Aurora AFX offers over 50 add-on accessories that can be used to create whatever the hobbyist chooses. If its a scaled down Grand Prix, then there's lap counters, computers, High Banked curves, flexible track sections, and buildings. If its a real life road situation he wants, then there's special obstacle trick track... cobblestone, 90° Intersections, radar traps, bridges and landscapes.

And for real hazardous challenges, then there's more obstacles, wiggle track, squeeze track, criss cross track, and the new AFX Daredevil Hazard Jump Set.

Only Aurora AFX offers you such a broad exciting group of road and race accessories.

**"Make 1981 the year to build a system for your store."  
The AFX System.**

# AFX OTHER NEW ACCESSORY FEATURES FOR 1981

## OBSTACLES

### AFX Daredevil Hazard Obstacle Set

This exciting new "snap-on" accessory offers the slot racing enthusiast see-saw jumps and dangerous bumps for his layout. What better reason to brake with your AFX "Turn-Ons" Blazin Brakes "Sp" car. The AFX Daredevil Hazard Obstacle set is featured in the "Blazin Brakes" set and is sold separately.

## SCENIC ACCESSORIES

### AFX 36" Golden Gate Bridge

Recreate the excitement of San Francisco with this exciting add-on scenic accessory. Supports any 36" long straight section of track and provides an exciting and challenging backdrop to any AFX layout.

### AFX Off Road Country Landscape

This new snap on accessory can be positioned on your AFX layout to provide a simulated country setting. Drive through the AFX forest day or night; glow warnings are included to help the night racer.

### AFX Over & Under Bridge

This new add-on accessory fits on to any over and under AFX layout to create a dangerous tunnel on the bottom level or a cross over bridge on top. Designed for easy assembly in simulated cobblestone.

FIREBIRD

PORSCHE 934

MONZA GT

CORVETTE GT

Turn-On the brakes — turn-on the Brake Lights. Slow down on the curves by applying the brakes.

## STOP POLICE!™ "SP" CARS

STATE POLICE

HIGHWAY PATROL

Turn on the Hiway Patrol roof racks when in pursuit. Turn them off when on patrol. or Turn on the transmission and reverse the State Police car into the radar trap, or squeeze track.

In 1981, Aurora is proud to introduce the all new AFX "Sp" (Special Performance) car... the Aurora "Sp" car now becomes the standard of performance surpassed only by the AFX G-Plus car... still the ultimate in performance and control.

For action and realism, in 1981 Aurora puts this "Sp" standard of excellence in the AFX Turn-Ons "Sp" action car.

Now, for the first time ever you have realistic dual-function control. These superbly engineered "Sp" action cars combine speed, performance, authentic detail and realism to create the exciting play features shown.
