SPEED STEER™

SLOTLESS RACING

A new, easy to use, speed & steer controller. A turn of the steering wheel changes your car's direction—just like real racing.

A new challenge in racing! A slow moving racing car that runs independently. To win you must pass it—but watch out; this slow poke changes lanes, too. A wrong move and you're blocked out—just like real racing.

Front wheel steering action for sure, fast lane changing—just like real racing.
