Sell My Slots

Steve Nunemaker · April 29 at 2:15 PM · 🌐

Hello all! I've started a 3d printing business and I create track adapters from anything to anything. My biggest sellers are 3d printed runner bumpers. They're as close to the original chrome as I could make them and with your addition of chrome paint pen they look super close to the original parts! My selection is growing daily as I'm constantly reverse engineering Tjet and AFX chrome. I'm adding some pictures of my current stock but if you don't see it ask!!! I'll do my best to secure an original and get them made!!

I also do Tek Blocks and some track scenery too.... Best of all... EVERYTHING IS AFFORDABLE!!! Adapter kits are 6" long, sold in pairs with NEW rail materials and are \$25 they will need assembled.

Dunlop arch kits are available built for \$35+ s&h or as a kit for \$15+ s&h

All bumpers are sold at \$3 a set (1 front,1 rear unless otherwise noted) or 4/\$10. Tjet Lorry beds are \$15 each kit, stake sides can be sold separately for \$7 for the 4pc set.

*** I do combine shipping and I will ship anywhere in the world!
