HAVE A GOOD TIME AT AUTO WORLD!

FLASH! Auto World's PRDA Team sets 24 hour AFX World Record of 155.8 miles on this track; then they beat their own record at the N.Y. Auto Show for a new World Record of 163.07 miles!

WELCOME TO AMERICA'S AURORA AFX RACE HEADQUARTERS

Here's our test track, where hundreds of Auto World customers race, test products, and help new drivers to learn about their cars. It's open 9 AM to 5:30 PM Monday through Saturday, and Thursday and Friday nights until 9 PM in our shopper's showroom!

If you've had trouble finding the cars, parts, track, sets, or accessories you want, you'll find them here at Auto World. These fine products are all available to you — BY MAIL — with a MONEY-BACK-GUARANTEE! It's E-Z and fun to shop by mail, and you'll save TIME, MONEY, and get WHAT YOU WANT!

It's E-Z to order by mail. Use the handy order form, send cash, check or money order. Add \$1.50 packing, postage, insurance charge to your order — and it's on the way to you right away. (Penna. residents add 6% Sales tax. Sorry, we're a Pennsylvania Corporation and must collect the state tax if you live in Penna.). For delivery in Canada add \$2.00. (Other countries: add \$3.50).

Founded in 1958 Auto World is supplying modelers and real racers with thousands of products. Our other catalogs are described in this catalog. Our highly specialized Aurora AFX division is at your service to help you enjoy greater success and victory in racing your AFX cars. Try us. You'll see what we mean.

HERE THEY ARE! THE NEW AURORA AFX MAGNA-TRACTION RACING CARS!

Faster than ever! Super-fast road hugging cars, fully detailed and assembled. Powerful magnets extend below the chassis to "Grab" the rails for better road-holding. (This is the difference between regular AFX and AFX Magna-Traction cars). These cars will run on all AFX and other HO tracks and use the same power packs and controllers. Manufacturer's suggested list price \$5.50 each.

SPECIAL PRO RACING EQUIPMENT

**THE CONTROLLER
USED TO SET THE
24 HOUR WORLD
SLOT CAR RECORD**

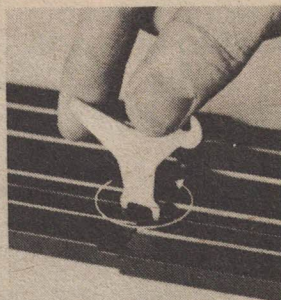

THE PRO CONTROL

Here's the PRO-CONTROL. A high quality precision controller designed for AFX racing. Heavy Duty resistors, Quick trigger-finger control, with optional brake feature (you can hook up if you like). For serious racers.

40 OHM PRO-CONTROL. For hot and modified AFX cars. Good on short layouts. Recommended for G-Plus cars.
No. 10-998..... \$6.98

45 OHM PRO-CONTROL. For AFX and AFX Magna-Traction cars. A good controller for all around racing.
No. 10-997..... \$6.98

- No more broken tabs
- Takes track apart too

A/FX QUIKEE-LOK. Assemble and disassemble A/FX Speed-Lok track with ease. Prevents breaking off locking tabs. Makes joint absolutely tight. Takes track apart easily too. Insert and twist according to instructions. Also has screwdriver and wrench for servicing cars.
No. 11-048..... 75

YOU NEED THESE TRACK CLIPS!

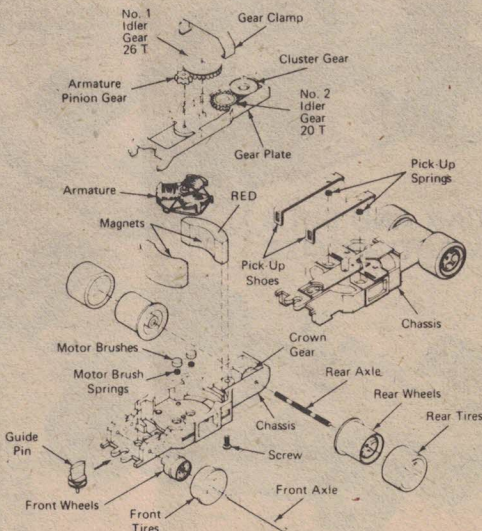

AFX TRACK REPAIR CLIPS. Track clips are not required to assemble AFX track. However, should the locking tabs on a track section break off for any reason, sections can be held together using these clips. 5 clips to a package.
No. 11-049..... .25 pk.

ARE YOU READY FOR THEM?

NEW AFX G-PLUS RACERS BY AURORA ARE THE WORLD'S FASTEST, BEST HANDLING CARS! THEY RUN ON ANY AFX OR HO TRACK AND USE THE SAME POWER PACKS AND CONTROLLERS.

**24 HOUR WORLD
RECORD HOLDERS**

TOP LEFT:
FERRARI 312PB SPORTS CAR. Replica of the world championship winning Ferrari, a fast road holding racing car.
No. 10-220 \$7.95

BOTTOM RIGHT:
FERRARI FORMULA 1 GRAND PRIX CAR. A world champion, with front and rear wings. A real winner. A must for your collection.
No. 10-099 \$7.95

What's a G-PLUS car? It uses an inline motor instead of a "pancake" motor, with only two gears. You get more HP and torque, and less friction. The motor magnets are of super-strength, and suspend below the chassis to GRAB the rails. Brass bearings and bullet-proof commutator give unbelievable RPM'S, and you can completely disassemble it without tools. A special reverse taper guide pin keeps the car STUCK in the slot, and the special racing tires are precision ground to perfection. Truly, a super race car!

Manufacturer's suggested list price on all these cars is \$10.00

INDY SPECIAL

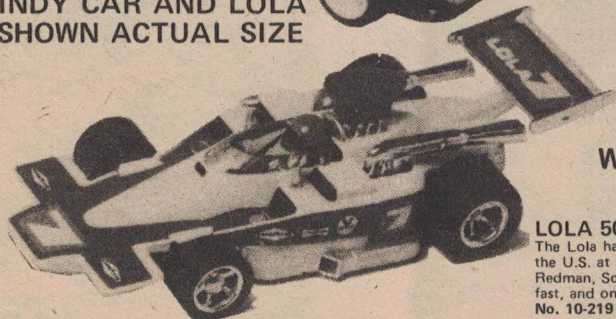

Patterned after the famous Indy cars. Here's a superfast design, a shimmering black body with colorful striping. A fast and sleek race car that is hard to catch!
No. 10-228 \$7.95

NEW POWER SLICKS

THE SLIP-ON TIRES THAT MAKE YOUR AFX CARS GO FASTER, CORNER BETTER, STICK BETTER! RACE TESTED AND PROVEN WINNERS!

Over 155 grueling miles on a single pair of special track-gripping, track-cleaning silicone. That's the new AUTO WORLD TIRE.

DECEMBER 11, 1976

AUTOWEEK

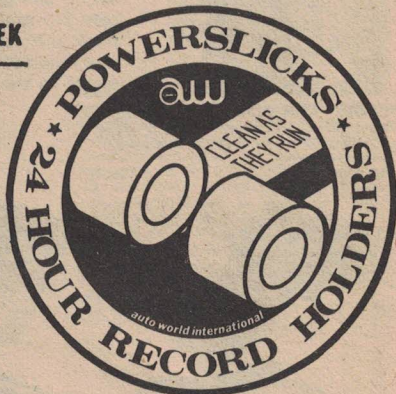

World Slot Car Record Falls!

SCRANTON, Pa. — A world record for AFX slot cars was set by the Polish Racing Drivers of America in the recent "24 Hours of Scranton" here Nov. 19-20. The actual mileage of the winning car was 155.8 on a 50 foot track. This beats the earlier record of 137 miles, and will be entered in the Guinness Book of World Records.

The winning car stayed on the track an average of more than 59 minutes out of every hour, and underwent only one major pit stop, for a gear change. It finished using the original motor and tires, according to Oscar Koveleski, president of PRDA, who sponsored the event at his Auto World headquarters in Scranton.

"I just can't get over the way they drove that car over the last hours of the race," Koveleski said. "If they can drive cars the way they control slot cars, I think I'll get the team ready for LeMans next year. . . ." (The PRDA is a loosely-knit organization of racing enthusiasts; Koveleski owns a CanAm car, and the group has run in the Cannonball Baker event twice.)

ASK YOUR HOBBY DEALER FOR POWERSLICKS!

3 COLORS AVAILABLE

Just-slip-them-on your original hubs. These specially formulated Silicone Slicks will out-handle, outrun, outspeed, outstick your competition. You can't be competitive without them. Moulded of special track-gripping Silicone, they stick to your AFX track like Glue. Try a set and see for yourself!

BLACK PANTHER POWERSLICKS. The most popular RACE WINNING tire ever. Cleverly disguised (no name on the tire) fits all AFX and HO car's original wheels. Size 7/16" diameter, 1/4" wide when mounted. No. 11-633.79 pr.

ORANGE PEELERS. YES! Orange like in color and fast. Good on banks and short tracks. Some drivers use an Orange Peeler on one wheel and a Black Panther on the other. 1/4" wide and 7/16" in diameter, fits all AFX and HO original wheels. No. 11-682.79 pr.

WHITE EAGLES. The absence of color changes the property of the Silicone and some drivers use only White Eagles. 7/16" in diameter and 1/4" wide when mounted. Fits all AFX and HO original wheels. They're worth a try! No. 11-683.79 pr.

ORDER BY MAIL FROM AUTO WORLD, 701 N. KEYSER AVE., SCRANTON, PA. 18508

NEW 1976 AURORA REPLACEMENT POWER PACKS AND CONTROLLERS FOR SETS MADE IN 1976 OR LATER.

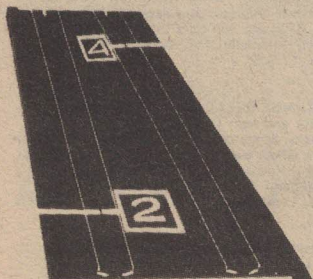

RUSKIT TYPE CONTROLLER. Trigger finger control, same controller that comes in Aurora AFX sets. Plug fits new plug-in terminal track.

No. 11-091.....\$3.98

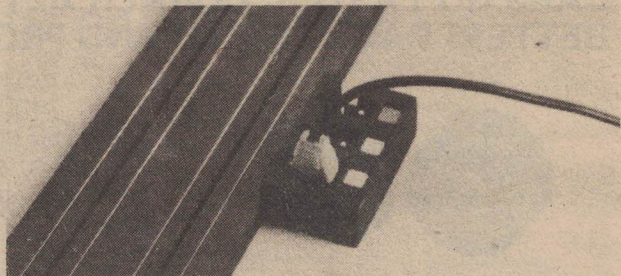

CONTROL-PLUS. Tune your car's response for different track conditions. "POWER DIAL" changes resistance rating instantly. You "dial in" the basic setting so you get just the control you want where you want it — at high speed, at low speed, or somewhere in between. No more "dead spots". High impact plastic, heavy duty resistors. Plug fits new plug-in terminal track.

No. 11-088.....\$7.50

LAP COUNTER IN THE TRACK. 9 inch straight track has built in lap counter for 2 lanes. Counts 10 laps in each lane, starts over again.

No. 11-095.....\$2.98

Aurora's New Quikee Assembly system allows faster and easier set-up and go. Plug-in system is now used in all new Aurora race sets. No more loose wires and terminal screws. Just plug power pack and controllers into the terminal track. Separate plugs are also available so you can adapt your old controllers and power packs to the new system.

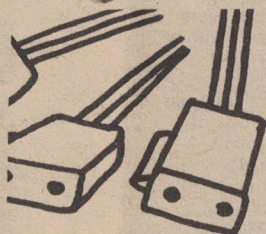

ABOVE:

PLUG-IN TERMINAL TRACK. Joins up with all other Aurora AFX track sections. Just plug in new power pack and controllers.
No. 11-086 (9" track).....\$3.95
No. 11-087 (15" track).....\$4.95

HIGH PERFORMANCE POWER PACK. Bigger and more powerful than usually found in sets. Recommended when running 4 lanes or extra-hot cars. For all AFX or any other HO cars. Plug fits new plug-in terminal track. Built in on-off switch. UL listed.

No. 11-089.....\$14.95

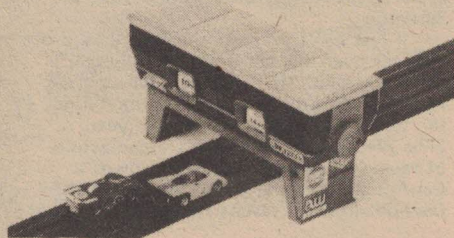

PLUG-IN SAFETY WALL PACK. DC power pack same as used in most new Aurora sets. Plugs into wall outlet. Plug fits new plug-in terminal track.

No. 11-090.....\$9.95

ADAPTER PLUGS. Set of 3 plugs lets you wire up any of your controllers or power packs to fit the new plug-in terminal track.

No. 11-093 (3 plugs).....\$1.69

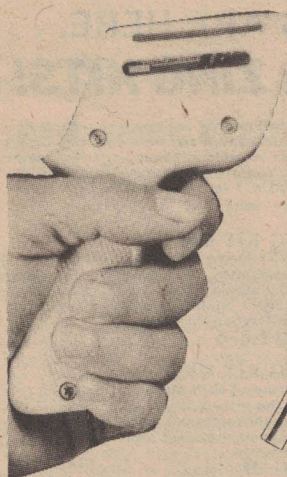

cars and track not included

AFX LAP TIMER. Accurately measures time for 1 lap (1st window) and shows scale miles per hour for that lap (2nd window). Timing starts automatically when car starts lap to be timed—stops when car finishes. Works on any HO track.

No. 11-064.....\$11.95

CONTROL-PLUS

AURORA CONTROL-PLUS. Now you can tune your car's response for different track lengths, varying track conditions. The **POWER DIAL** changes resistance rating instantly. You "dial in" the base setting of the controller so you get the exact response you want—more control at high speed, more control at low speed, let's you "feel" the car better. No "dead" spots at high end, low end, or in between. You tune it! Made of high impact plastic with heavy duty resistors and components for years of maintenance free running. For ALL HO cars, regardless of how mild or how hot. No. 11-903 \$7.50

NOTE! LAP COUNTER WORKS ON ALL SETS.

cars and track not included

AFX LAP COUNTER. Separate window for each lane shows laps from 0-99. Instantly resets to zero for longer races. Actuated as cars pass under bridge. Works on any HO track. No. 11-062 \$11.95

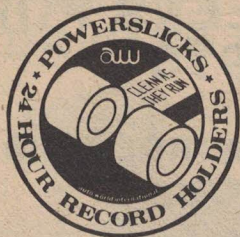

HEAVY DUTY POWERPACK

AURORA HI PERFORMANCE POWER PACK. Bigger and more powerful than usually found in sets. Recommended when running 4 lanes or extra hot cars. For all HO or AFX cars. On-off switch. UL listed. No. 10-980 \$14.95

24 HOUR WORLD RECORD SETTING PARTS

NEW PERFORMANCE OVERHAUL KITS ARE HERE. . .

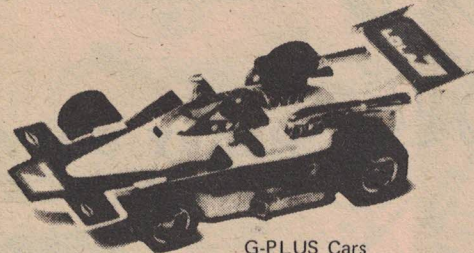

The ZING KITS!

AFX Cars with Magna-Traction use ZING KIT MK 1

AFX Cars without Magna-Traction use ZING KIT MK 2

G-PLUS Cars Use ZING KIT MK 3

Add performance and power to your car. First disassemble and clean your car. Then replace your old and worn parts with these parts. You will see the difference! There's a ZING KIT for every AFX car. Try one, and put more ZING in your racing!

ZING KIT MK 1

For AFX Magna-Traction cars produced 1975 and after. This kit includes 2 pickup shoes, 2 pickup shoe springs, 2 motor brushes, 2 motor brush springs. This is the AFX Magna-Traction-only ZING KIT!
No. 11-44798

ZING KIT MK 2

For standard NON Magna-Traction AFX cars. This kit includes 2 pickup shoes, 2 pickup shoe springs, 2 motor brushes. The motor brushes are part silver for improved performance.
No. 11-44898

ZING KIT MK 3

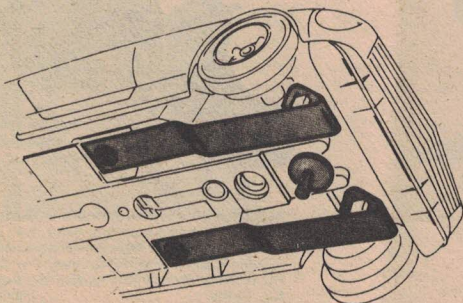

Strictly for the AFX G-Plus race cars. Add PLUS performance with new parts. 2 pickup shoes, 2 pickup shoe springs, 2 motor brushes, 2 motorbrush springs. Clean and install, see the difference!
No. 11-44998

NEW "WIN PIN"

The reverse taper steel guide pin that replaces your plastic guide shoe in all AFX cars for faster cornering, better road holding, less deslotting. Smooth, fast, track action!
No. 11-926 (Set of 2)39

NEW "POWER STEERING" WITH LONGER PICKUP SHOES MAKES CARS EASIER TO DRIVE AND CONTROL

AFX POWER STEERING. Just pop these parts on any Aurora AFX chassis (including Magna-Traction) and get better cornering. Kit has 2 extra wide and longer pickup shoes and a reverse tapered steel guide pin. Shoes improve electrical contact for full power at all times. The guide pin eliminates flex.
No. 11-90479 ea.
(PACKAGE OF TWO, \$1.50)

ASK YOUR HOBBY DEALER FOR AUTO WORLD PRODUCTS

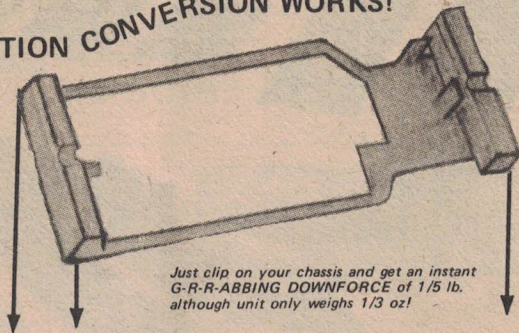

HERE'S A CONVERSION PAN FOR AFX CARS WITHOUT MAGNA-TRACTION

MAGNETIC-TRACTION CONVERSION WORKS!

Special!

REG. PRICE \$1.00

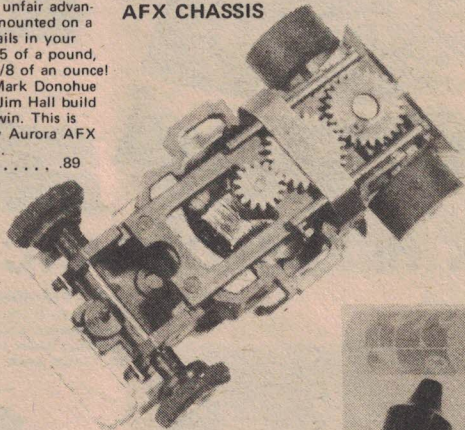

NOW 89¢

Just clip on your chassis and get an instant G-R-R-ABBING DOWNFORCE of 1/5 lb. although unit only weighs 1/3 oz!

TRACKSTICKER PAN. Convert your AFX cars into the fastest cornering, quickest stopping, best handling cars ever. Instantly stops 90% of de-slotting. Win every race against other cars not converted. If there ever was an unfair advantage, this is it. Powerful twin alnico magnets mounted on a brass clip-on pan try to G-R-R-A-B the steel rails in your track, giving you an effective downforce of 1/5 of a pound, even though the conversion weighs less than 3/8 of an ounce! When Richard Petty says "Cheat Neat", and Mark Donohue "Takes the Unfair Advantage", and guys like Jim Hall build "ground-sucker" cars, there are easy ways to win. This is one of them. No cutting or fitting, fits on any Aurora AFX or Magna-Traction car (except specialty series).
No. 11-441..... .89

PAN INSTALLED ON AN AFX CHASSIS

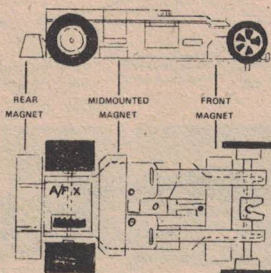

NEW POWERWIND ARMATURE!

NEW power and speed for your AFX cars that don't have Magna-Traction. This special armature (installed in the NEW MAGNA-TRACTION CARS after '75) features the latest armature technology and is superfast! It replaces the standard No. 11-804 unit, slips right into place!
No. 11-927..... \$2.00

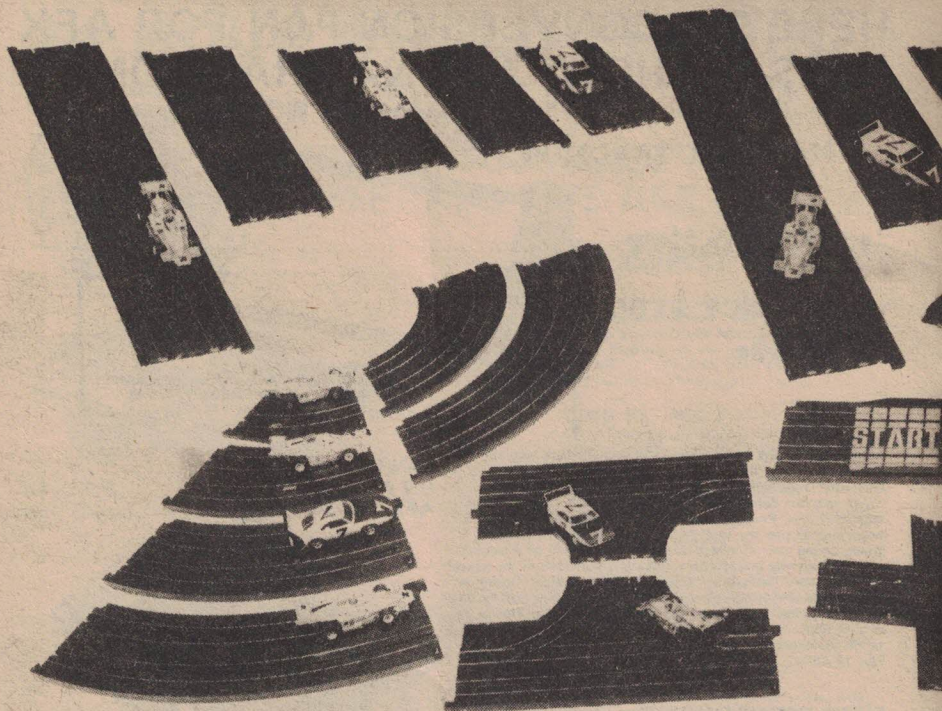

AURORA X2C OILER. Micro-tube dispenser filled with finest quality synthetic oil reaches into the smallest area of any HO car. Never turns gummy. 7cc size.
No. 11-902..... .98

T.M. MAG-TRAC MAGNETIC TRACTION FOR PRO BUILDERS

MAG-TRAC(tm) WEIGHTS. Get the same kind of magnetic traction that you get with Auto World's TRACK-STICKER above. These magnetic chassis weights glue inside your HO car and create a magnetic force that makes the car hug the rails. You drive faster, brake quicker, take the turns at full speed without de-slotting. While the TRACK-STICKER PAN (above) will only fit Aurora AFX chassis, these MAG-TRAC(tm) weights will fit just about ANY HO car, including Aurora AFX and Magna-Traction cars, T-Jets, Tuff Ones, Tycopro, Riggen and others. Package of 6, enough for 2 cars, plus instructions.
No. 11-439..... \$1.00 pk.

THE MOST COMPLETE RACING HANDBOOK EVER WRITTEN ABOUT AURORA AFX RACING. A MUST FOR THE BEGINNER AND EXPERT. A WEALTH OF VALUABLE INFORMATION.

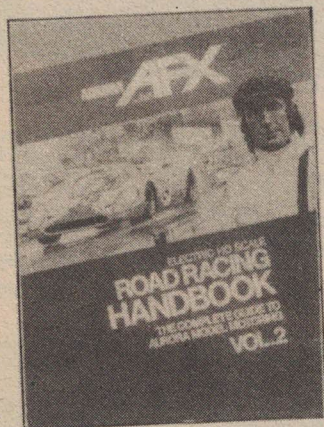

Regular price \$2.50 NOW \$1.99

AFX ROAD RACING HANDBOOK VOLUME 2. The first and only complete AFX Road Racing Handbook in the world. Written by the top drivers and writers in the field. Edited by Phil Jensen.

Inside are tips and ideas never revealed before, with E-Z to follow photos and drawings on everything like setting up your stock AFX cars to win. . . How to tune and modify them. . . Complete parts lists and diagrams for AFX cars and Special vehicles. How to install Hop-up parts in AFX cars. . . Tire sanding and shaping. . . Clear body finishing. . . High performance parts. There's a complete section on how to wire your layout for more power and speed and which controller to use. Learn about car handling, low center of gravity, articulated pans. See how custom car champion Rich Morgan reworks the AFX cars into super scale models. Learn how to start your own AFX racing club, set up a four lane racing track and hold races. All the rules and details are here for the first time. See how easy it is to build a scenic racetrack using wallboard and plaster. Design your own raceway or use any one of the 9 major track layouts illustrated like *Watkins Glen, River-Side, Road America, Daytona, Mid-Ohio, Road Atlanta* and others.

No. 36-031FC. Special \$1.99

NEW ELECTRIC RADIO CONTROL CARS! RACE 4 OR MORE INDOORS OR OUTSIDE!

NEW!

1/16 SCALE ALFA RCX

THE ALFA RCX is the best buy in a radio controlled electric car available today for under \$100.00. The fully digital proportional radio allows you smooth steering right or left, like a real car, and forward and reverse!

The sophisticated 5 function radio-generated computer digital logic gives you precise control, and four different fixed crystals allow you to race four at a time — with more coming in the future.

The car is 1/16 scale, about 12" long and 5 1/4" wide, and small enough to race indoors or out, anywhere! No FCC license is required to operate, and it uses only four regular "C" battery cells for the car and one 9 volt transistor battery for the transmitter. Batteries are not included.

Battery life is over 2 hours for plenty of racing time and fun. Parts are available by mail from the factory, as well as service, and it comes with a 90 day warranty.

Suggested list price is \$72.00, your price is \$59.50. Pick the car you want, or if it's your first car, allow us to substitute in case your color is sold out. Please write "ANY COLOR" to assure prompt delivery. The same color cars cannot be raced together since this is how they tell which frequency is being used!

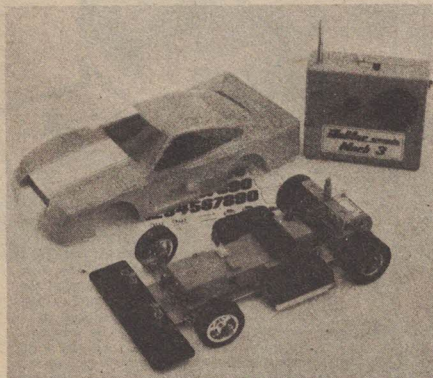

- 17-028 RED ALFA RCX \$59.50
- 17-029 WHITE ALFA RCX \$59.50
- 17-030 BLUE ALFA RCX \$59.50
- 17-031 YELLOW ALFA RCX \$59.50
- 17-041 Complete Battery Pack. \$5.39

NEW AUTO WORLD SPECIAL 1/12 SCALE ELECTRIC CAR BREAKS THE PRICE BARRIER!

With this type car currently selling for \$225.00 and up, this car, designed by Jerabee, Jo-Mac, and Auto World, combines the best features and is produced in a quantity to LOWER THE PRICE!

This is a "PRO" car in every sense of the word, featuring the newest Jo-Mac Brick digital proportional radio with interchangeable crystals (race up to 14 at a time; crystals available separately), steering wheel "touch" control, the car steers exactly the same as the wheel quickly (for fast racing), and positive multi speed motor control that responds the same way.

The car comes with 4 quick charge rechargeable batteries and charger which allows you to charge your batteries in 15 minutes from a 12 volt car battery! The car can easily be converted to a 6 cell car (R.O.A.R. outdoor class racer) by purchasing two additional cells (available separately).

Almost indestructible, it features a Lexan chassis, Lexan body, the Astro motor (which has won more races than all other motors combined). Ready to race, this is a beauty!

Additional body styles are available separately, as this is truly a hobby car and extra wheels, tires and parts are also available from Auto World. Full repair service is available. Suggested list price, \$220.00.

AUTO WORLD'S "AUTOTROL(tm)" 1/12 ELECTRIC CAR. Includes completely assembled car with transmitter, 4 nicad rechargeable batteries with charger, and transmitter battery.
No. 17-420 \$179.95

79¢
SHEET

Position the sheet and "Rub on"

WOW! HOW DID YOU LETTER THAT MODEL?

Now you can letter your models like a professional. AUTOLETTER is available in many type styles and colors. Easy to use. Just "press-on" the letters with a small blunt instrument like a ball point pen cover. Letters stick to plastic, wood, paper, glass, painted surfaces. Doesn't leave an edge like decals do. Goes over ridges and odd shapes. Try it and see.

- No Decal Haze ● No Cutting
- Looks like hand lettering
- Goes over ridges and odd shapes
