THIS IS MODEL MOTORING

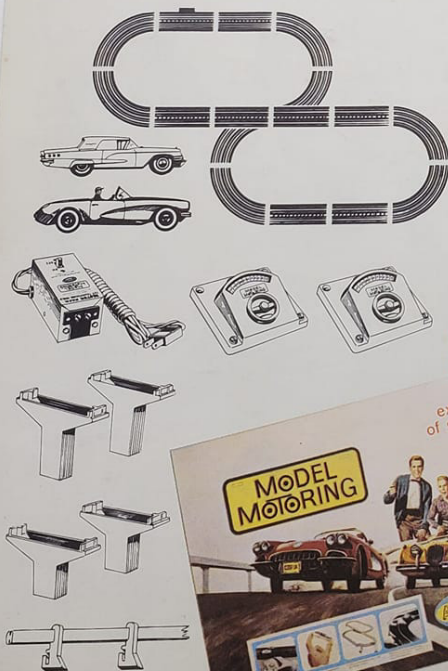

the most exciting road and racing set in the world!

Down goes the green flag and they're off—zooming along the straightaway at 150 scale mph! Watch it . . . here comes a hairpin curve. Hit that bend at top speed and you're a spin-out for sure! MODEL MOTORING IN HO SCALE is the ultimate in table-top racing, gives you twice the action in half the space, lets you re-create any race course in the world. For the model railroading fan, it's a natural — build it right into your HO train layout. Add a Grade Crossing and get set for hit-or-miss action right out of a Hollywood movie. Choose from many complete sets. All MODEL MOTORING equipment is open stock. You can build as big a layout as room will allow! Test-drive it now — at hobby dealers, toy, variety, and department stores everywhere!

IT'S A SPORT, A GAME, A LIFETIME HOBBY.

MODEL MOTORING 2-LANE SETS

all the excitement of speedway racing and highway action in HO scale!
