Revolutionary new G-Plus™ cars... Gravity Plus More... utilize the motor's magnetic field plus flux collectors to greatly increase traction. Result: greater acceleration and stopping power... plus a dramatic, up-to-30% reduction in lap times. Designed for speed, the monocoque style motor is the most modern in-line ever developed. Using part of the chassis for support, it features brass bearings and bullet-proof commutator brushes which require less power and therefore, produce less heat for cooler running. No tools necessary for assembling or dissembling the new Aurora® G-Plus™ cars—maintenance is super-simple. For handling: Special reverse taper steel guide pin, independently rotating front wheels, trued sponge slicks—all built with the finest detailing ever. The G-Plus™ car gives you Pro Status.

G-PLUS™

THE FASTEST PRODUCTION HO SCALE RACE CARS EVER!
