AURORA[®] AFX MODEL MOTOR RACING GX2850

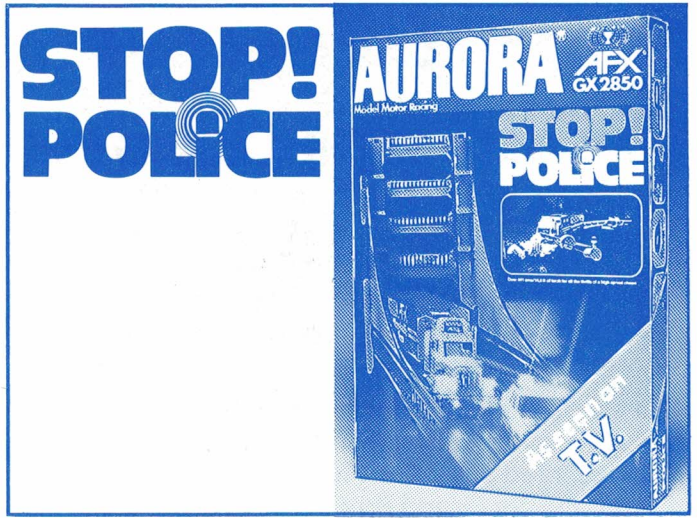

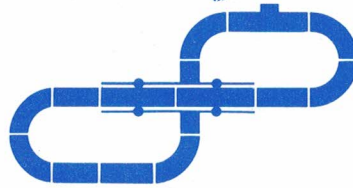

6404 Srp £49.99p

All the thrills of a Police Chase. Over 427 cm/14 ft of over and under racing track. Can the Police Car with alternate flashing roof lights catch the hijacked 10-wheeler truck as it crashes through the Police barrier and races off into the night with blazing headlights over the giant suspension bridge? One piece of squeeze track increases the thrill of the chase.

PLUS: Two Russkit[®] Speed Controllers, bridge beams and extensions, guard rails, trackside banners and a Quickee Lok[®] key.

This set will also build at least four alternative circuits.

ELECTRONIC

Data Race™

with real racing sounds

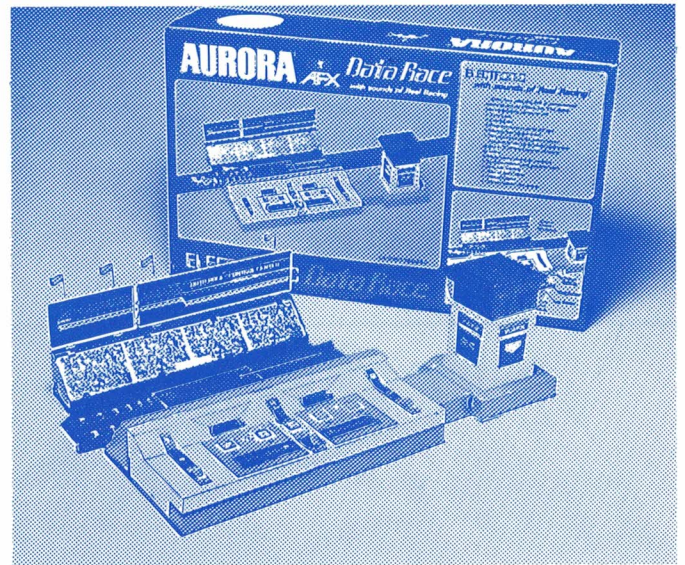

6430 Srp £55.00p

The Data Race™ Electronic computer adds a further dimension to Aurora Model Motor Racing. The 3 separate programmes incorporated in the computer provide instant LED read out of the following functions.

- * Programmes races (up to 95 laps)
- * Times last lap
- * Records fastest lap
- * Counts laps
- * Measures fuel consumption
- * Low fuel warning
- * Out of fuel signal
- * Re-fuels (up to 95 gallons)

The Electronic Sound Synthesizer generates six different sounds including

- * Start countdown and gun shot start
- * Motor racing sound for each car
- * Low fuel warning
- * Out of fuel signal
- * Re-fuel signal
- * Victory salute for winner

Date Race™ will provide at any time the following information for each driver

- * Laps completed
- * Previous lap time
- * Fastest lap time
- * Fuel remaining

AURORA[®] AFX MODEL MOTOR RACING LAP COUNTER

6493 Srp £12.99p

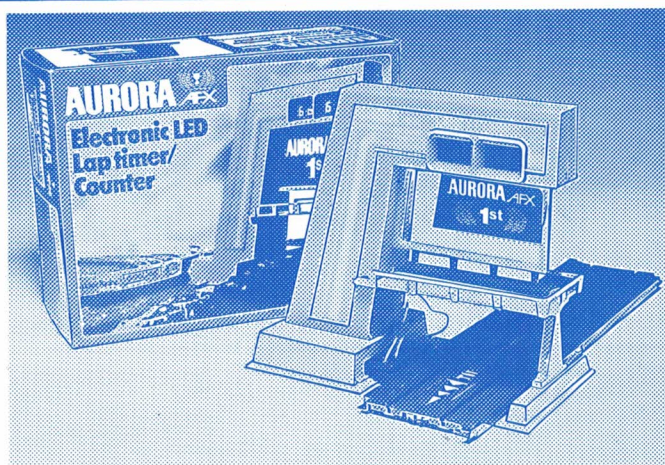

Automatically counts up to 60 laps on each lane. The two large clock counters can easily be reset to zero.

L.E.D. ELECTRONIC TIMER AND LAP COUNTER

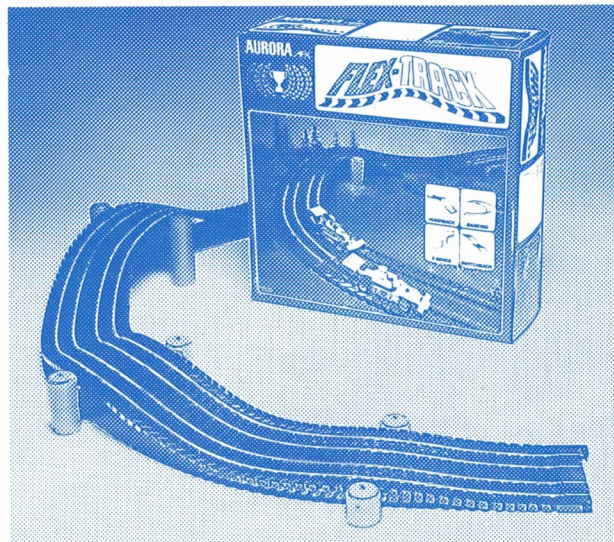

6495 Srp £29.99p

Split-second timing for individual lanes is clearly shown on the L.E.D. displays, or switch over to the automatic lap-counter.

6532 Srp £7.99p

The unique Aurora Flex-track[™] can be curved, humped, clipped, banked or cambered for two or four lane racing. 91 cm/36 ins long each section of Flex-track[™] comes complete with 3 bridge beams and 6 extension posts to add greater flexibility in circuit design.
